## Commentary

**THE QUESTION** of how best to serve the interests of our out-of-town patrons has always been an interesting theme with us, and in launching **this our 1904 Catalogue** upon the jewellery-buying public, we hope to still further the usefulness and scope of our mail order department.

As will be noticed, we have added very considerably to all departments, and the success our Catalogues have attained impelled us to renewed efforts and plans in co-operating with our large and growing patronage for a continuance of the support already so generously bestowed.

The liberal responses which came to our mail order department during the past have been, we believe, almost entirely due to the fact of our having discovered how to make buying-jewellery-by-mail simple, convenient, practicable and advantageous to an eminent degree. Knowing the pulse of the public want, and having the facilities to supply that want, has given us command of a large volume of business which has proven the wisdom in "going out to the people" when they cannot come personally to us.

Every design in this Catalogue has been photographed from the original article, the cuts or engravings you see being what is known as "half-tone etchings," giving one an exact idea of the article illustrated.

**Confidence** is the keynote which proclaims the news of successful merchandising, and living up to the very letter of our promises has accomplished it for us.

We have spared neither time nor expense in compiling what we believe to be the most comprehensive collection of desirable and high-grade diamond designs, fine gold jewellery, watches, sundry silver wants and novelties of many kinds ever shown.

Our business is confined exclusively to those branches of trade which legitimately belong to the gold and silversmith's art and the selling of fine diamonds, etc., our diamond and other jewelled designs being undeniably the largest in Canada.

The rigid regard for the maintenance of high quality has gained for us a reputation which we highly prize and resolutely intend to hold fast throughout the years.

An inquiry of the leading commercial agencies, banking and financial institutions of Canada will, we think, suffice to appraise the position we occupy in the commercial world.

We will not dwell upon the many excellencies of our stock, but in soliciting your patronage we ask a careful perusal of the following pages, assuring a prompt and painstaking interest in all orders intrusted to our care, our equipment for carrying out the same being unsurpassed on the American continent.

## When Ordering

**Please do not cut out** the illustrations of the articles you require, as it not only deprives and curtails the use of this Catalogue for future reference, but is besides entirely unnecessary.

**Order Forms** have been provided, and are to be found next to both the front and back pages adjacent to the covers, and have been prepared with a view to make your ordering simple and pleasant.

**Please fill in order form** carefully, stating the Catalogue number of the article or articles, and on what page they are to be found; write distinctly and state whether to be sent to Mr., Mrs. or Miss, also be particular about the address.

**To obtain the exact size of a ring**, please use our "Ring Size Card," which will be found enclosed in an envelope placed at back of Catalogue. Should it happen by any means to get lost, by writing us we will forward you another. If there is not time to do this, cut a strip of paper so that the ends will just meet when placed around the finger, and enclose it with your order. This will be quite satisfactory.

**We make no charge** for doing ordinary engraving on all orders from \$1 and upwards, *including initials or monograms on watches*, charging only when "raised monograms," "extra engraving" or inscription work of an extensive character are required. A charge of 3c. per letter is made on all articles under the value of \$1.

**The prices** quoted in this Catalogue are net prices, and our terms are cash unless you have a satisfactorily arranged account with us.

**We prepay** all mailing charges of orders from \$1 and upwards.

**Remittances** should accompany all orders, and can be sent in cash per registered letter, express order, post office order, marked cheque or bank draft; or, if desired, we can forward your order per C.O.D.

By attention to the above details our customers can greatly facilitate their business transactions. All orders—great or small—will receive our very best attention.

# Introductory Designs

No. 1210—Scarf Pin, fine Ruby, Diamond wings, Pearl head and Ruby eyes, \$35.00

No. 1211—A fine Diamond, \$875.00

No. 1212—Fine 3-stone Diamond and Sapphire Ring, supplemented with four smaller fine Diamonds, \$500.00

No. 1213—Ladies' 18k solid Gold Chatelain open-faced Watch, showing the reverse side set with fine Pearls intersected with small Diamonds. The Brooch attached is also of 18k gold set with fine Pearls. Price for the two, complete, \$95.00. The front, or obverse side, is shown in article numbered 1221

No. 1214—This unique design is in the form of a Brooch—an aquatic symbol of the finny tribe. The head is a beautiful piece of Oriental Pearl, found in its natural shape, as illustrated. The inserted eye is a Diamond, and attached to the fish-fork of gold is a fine Oriental whole Pearl. The body is 14k Gold, appropriately tinted. We illustrate it as a specimen of our originality in designing. Its uniqueness deprives us of stocking other than this single piece. The purchaser will have the distinction of possessing a decidedly rare and beautiful ornament, impossible of ever seeing in duplicate. Price, \$75.00

No. 1215 —Fine Diamond Pendant and Necklace, complete, \$1,000.00

No. 1215A—The Necklace alone—price, \$1,350.00—contains 26 of the purest of diamonds, personally selected by our Mr. Benjamin Kent, each stone receiving special scrutiny regarding its particular fitness towards obtaining a really enviable creation

No. 1215B—The Pendant—price, \$2,650.00—it will be noticed, is made up of 9 stones. These, too, like the Necklace, boasts of diamonds of rare purity. In addition, it claims the proud fact of possessing the largest single diamond in existence in Canada to-day—quality considered. Its weight is but 1.32 short of 15 karats. The eight surrounding diamonds add 3½ karats more, bringing the total diamond weight of this single ornament to close upon 18½ karats. Its network setting of fine gold is itself a masterpiece, and serves the four-fold purpose of Brooch, Pendant, Hair Ornament or Corsage Pin. We introduce this gem companion set as an example of our ability to fill any known want in the supplying of fine diamonds

No. 1216—Fine Whole Pearl and Diamond Brooch, \$225.00

No. 1216A—Same, all fine whole Pearls, \$100.00

No. 1216B—Same, fine whole Pearls and Sapphires, \$85.00

No. 1216C—Same, all fine Diamonds, \$265.00

No. 1220A—Fine Diamonds and Rubies—Marquis Ring, \$62.00

No. 1220B—Same, with Emeralds in centre, \$68.00

No. 1217—Like our No. 1214 Brooch, the above is introduced also as a specimen of exclusive designing, and when sold cannot be duplicated. At present each of these two designs are in stock. In the above Brooch the head is a natural Oriental Pearl, with a Ruby eye, set effectively in 14k Gold appropriately colored, with the five fine Diamonds in the lower portion. This design is one sure to grow in the favor of its owner. The price is \$60.00

No. 1218—Scarf Pin, fine whole Pearl, Diamond wings, Ruby head and Diamond eyes, \$40.00

No. 1219—A fine Diamond, \$1,200.00

No. 1220—A fine Diamond, \$675.00

No. 1221—This illustration is the same article as No. 1213, showing the front or open-faced view of the watch. The dial is a rich cream shade, almost white, made of the finest and hardest French enamel covering a plate of gold. The dial figures are purple on gold, and the hands of solid gold. A gem in every respect. Price, complete, \$95.00

## A Word About Our Watch Section

**High Grade Watches**—It's always an interesting topic with us—that of watches. This business has been built up largely through the high standard and better values given in our Watch Department. While the quality of gold used throughout our entire stock is the most desirable the question of manufacture is a very important one. Our watches are made to last a lifetime. When you select a B. & H. B. Kent movement it is a timepiece that is the product of the very best watch skill. They are made especially for ourselves under special instructions on improved mechanical theories which years of experience give us a knowledge of. There are no superior watches made. The universal satisfaction these timepieces give make us very positive as to the merits we claim for them. A written guarantee to support this accompanies every watch sold.

Few places on the American Continent offer equal advantages with ours in the selection of a timepiece and the obtaining of as good value. Our immense annual turnover brings us directly acquainted with the leading manufacturers, who find here a market for their goods. There are no middleman's profits. We sell at minimum prices, and do the largest watch business in Canada to-day.

When making the selection of a watch unless high quality is prevalent throughout its entire state it is only a question of time when disappointment sets in. Frequently a watch is sold as solid gold or of a certain standard of gold that is not as good in some parts as in the particular part spoken about. The deception of unreliability is often practised, and the reason for it is not infrequently due to inexperience as well as wilfulness. When you buy of us you take no chances or risk whatever. Our reputation is at stake, and the maximum amount of value is to be had.

If you have never transacted any business with us we respectfully invite your patronage now. A trial order, however small, will have the same careful attention as that which pervades all our undertakings. We have always made it a rule—and a fast one at that—to respect the filling of the "little wants" of our patrons. The old maxim, "what is worth doing at all is worth doing well," is ever before us in all our dealings.

We offer this page of designs with every confidence that the values are all we claim - the very best obtainable. A Scarf Pin is a piece of jewellery that requires more real artistic talent than one might suppose because of the limited space for the display of the goldsmith's art. Finish and jewel quality of a high order will, however, make up for this if practised to the full and in the above designs every trace of daintiness and art will be found.

**Diamond Quality.**—Perhaps there is no department in our business which we are really so proud of as that which occupies our *Diamonds*. To-day we have doubtless the largest Diamond patronage accorded any existing house in Canada, and this has in a large measure been due to the high qualities prevalent throughout our entire number of designs. Wherever jewels other than Diamonds assist in contributing to a favorite ornament, the same regard for the harmonizing of quality of a correspondingly high grade will be noticed. It is this universal observance of the rules governing excellence that awards to us the credit for having masterpieces not obtainable elsewhere.

**A Natural Query**—It may be doubted by some our ability to give better values over ordinary values. Our answer to that is—for many reasons and it may be opportune to cite one or two. We have been selling Diamonds, Watches, Jewellery and their accessories now for going on half a century. When Toronto's population was one-third what it is to-day, the name of "Kent" was a factor in the Jewellery commerce of its locality. The experience of all these years has combined with it the advantages of close buying. For years past we have imported direct the Diamonds and other Jewels in the loose stones preparatory to setting and fashioning them in designs of our own production. Our large annual turnover too has added considerably in enabling us to sell at a closer possible margin in consequence. We therefore have claims which ordinary methods cannot avail.

**Wedding Diamonds.**—During the special gift seasons, when weddings abound and which Christmas provides, our Diamond assortments attract attention from afar and near. Ordering an expensive ornament or desirable piece of costly jewellery has proven quite capable of being as satisfactorily purchased through the medium of our catalogues as though the selection had been made in person attending our establishment. A Diamond Wedding Gift above all else should have the elements of that high quality which rare beauty compels the recognition of. When you make a choice from out of our assortments you will certainly notice these combined attributes which are present, and evidently so to a high degree.

A Crescent Brooch or Pin, as they are not unusually called, is always a desirable gift, and a decided acquisition to milady's jewel box. It matters not how numerous the variety in other brooches, one must have a crescent effect numbered as amongst the jewelled treasures. It is only fair to state on behalf of the originals that the illustrations hardly do even a small measure of justice to them. While we have gone to considerable expense in giving one a good idea of the values we are in a position to offer, still we would like to impress upon those who may be about to order from the above designs that the articles in question are of the very finest manufacture and finish.

**Our Ring Stock.**—Tourists and the travelling public tell us repeatedly that our Diamond and Precious Stone Ring assortments are undeniably the largest and most comprehensive collection of rare and beautiful gems seen in any single establishment in this country. There is certainly not a ring-want impossible of supplying, and the extensive range shown in these pages comprise the latest and most fashionable prevailing styles. In quality we are confident we offer that high standard which even the most critical eye will render favorable sanction. In values we offer opportunities and advantages which only our unique buying facilities make possible—the very best to be obtained. Our gems are imported direct after personal selection by our Mr. B. Kent, who makes periodical visits to the leading European centres of the genuine cut Amsterdam diamonds. Every diamond selected from our stock carries with it our personal guarantee of high quality.

We beg to draw attention to our Ring size card which will be found enclosed in an envelope at the end of the Catalogue. All that is necessary is to try on the size which fits snugly, yet not too tightly, the finger the ring is intended for. Record the size number along with the order. It is not necessary to cut out the hole—merely mention its number, the card can then be replaced in the envelope for future reference.

Distance Not a Barrier—Purchasing by mail has ceased to be an innovation. It has passed the experimental stage. We have made it eminently successful and there is hardly a hamlet or village in Canada that does not contribute its quota of patrons-by-letter when the time comes round for the filling of a jewellery want

**About Engraving**—Please bear in mind when stating the initials you wish inscribed on an article to write distinctly. We suggest "Printing" as well as writing them, so as to avoid the possibility of a mistake. For instance, J. J. C. might also appear on your instructions I. J. C. We engrave initials on all articles free of charge.

To lessen the cost occasioned through the wearing of the Birth stones which the months of May, July and September entail, "doublet" stones are sometimes used. For instance, an Emerald doublet for May, a Ruby doublet for July, and a Sapphire doublet for September. We then set these "doublet" stones in the same styles as the illustrations in these months call for, using 14k and 10k gold, the 14k gold quality costing \$4.00 each, the 10k gold quality costing \$3.00 each respectively.

**Children's Rings**—In ordering a Child's Ring, when the ring size card cannot be brought into use, just cut a strip of paper, placing it around the finger so as to allow the ends to meet—not overlap. The prices quoted are for Children's sizes up to size four in the ring size card, which you will find enclosed in an envelope at the end of the Catalogue. We charge 25c. for each additional half-size enlargement over size four, and never alter a Child's Ring above size 5½.

**Re Engraving.**—We not only engrave your initials free of charge on any of the above plain designs, but in doing so aim to improve the effect much above the class of work ordinarily done which oft-times depreciates the value of an article instead of enhancing it. The lower row of designs we have devoted as a Ladies' Selection.

**Fully Satisfactory**—If you have never felt warranted in purchasing Jewellery by mail, our system and methods will, in all probability—when once tried—show how fully satisfactory it can be made possible. In the offering of filled Gold Jewellery only those qualities which years of practical experience have demonstrated beyond doubt as being almost as good as solid Gold for service, find a place in our stock. Our filled Gold selections are guaranteed to withstand the inroads of hard wear, otherwise they would not be seen in our stock.

Illustrations on this page show only section of pattern in actual size, the full length of the chains being about 11½ inches long. The "mounts" in the guards and the "links" in the chains show their pattern in actual size. The guards are of the customary regular length and vary accordingly, the illustrations being sufficient, we trust, to give one a good idea in this respect.

The above designs compose the most favored of this season's latest Dress Ornaments, and one will not fail to notice an abundance of real merit throughout. They are finished in the popular French Grey effect, only of a more artistic nature than has hitherto been possible. Their exceptional beauty has won for them much praise from lovers and critics of Silver Art Jewellery.

We again take pleasure in calling attention to our Fountain Pen selections. As will no doubt be observed, we have added to our assortments. The business done last year in the Waterman Fountain Pen exceeded our most sanguine calculations, and we can doubly renew our confidence in them which experience has fully demonstrated to be "the best Pen of all." Illustrations of Waterman Fountain Pens are about two-thirds size. The other illustrations are actual size.

No. 3646—Same, size larger, diameter 3 3/4 inches, \$6.50 and \$7.00 respectively.

The above Toilet Concoits require no extended recommendation on our part. Their real merit lies in their extreme artistic beauty through the combined elements of "applied silver" and French Grey Silver processes. The bottles themselves are of the finest polished glass, in tints of Emerald Green and Crystal White. The ornamentation of silver placed thereon is known as "Silver Deposit" ware and gives art engraving also a chance to display its skill. They make very useful and ornate gifts.

Patrons will find our Sterling Novelties beyond doubt the very best values offered in Canada. We do not illustrate light weight and tawdry made products of cheap manufacture. Your selection will not be one fraught with the dread possibility that the recipient will detect an inferior article. On the contrary, inspection will lead to good impressions.

**Gifts for Men**—If a pipe is the gift wanted, the ones chosen above have much to commend them. In the Briar kind the bowls are made from the finest and expert-selected woods, the remaining two, Genuine Meerschaum, the stems in all four being likewise of the best transparent quality and durable. Strongly applied sterling mounts, which add to their appearance and strength, and a well-made Leatherette Hinged Case made to fit each particular shape, leave nothing desired in making them beyond doubt of practicable service and a highly prized gift where a pipe can be given.

Our Collection of Novelties is one which is always well patronized, and calculated to relieve one of much of the anxiety gift-buying produces. Our patrons will have more to interest them than ever, in view of our having considerably supplemented our "Sterling Novelties" with many new and attractive suggestions. We reiterate our request—that your purchases be made as early in December month as possible, and not later than the fifteenth of the month, provided they are Christmas gifts.

We engrave initials *free of charge* on all articles from \$1.00 and upwards. A charge of 3c. per each capital letter is made on articles under the value of \$1.00. When Letter Seals require the initial inscribed backwards for "sealing" purposes an extra charge of 20c. per letter is made, and when so required in the above Seals their increased value gives them entry to the list of articles where the engraving of other initials in the ordinary way are done free of charge.

The above Manicure Sets are worthy more than mere passing notice. We have built up an immense demand for these particular toilet necessities, and we are satisfied that the values offered on this page are such as will undoubtedly call for favorable comment. The two sets to the left of the page are finished in "French Grey," now popularly and familiarly known by that distinct dull finish given to silver nowadays, and withal a very pleasing effect. The remaining two to the right are "bright finished." Either of the four will be found an artistic and striking design, and in themselves highly appropriate for gift-making.

The four pieces on this page of similar design, Nos. 4188, 4189, 4192 and 4197, containing Button Hook, Clothes Brush, Mirror and Hair Brush, are known as "The Rose" design and are amongst the handsomest of toilet ware. It will be noted we give quotations for some of the companion pieces to this particular design as well. This pattern bears an exceptionally beautiful "French Grey," partly oxidized finish and is recommended to those of our patrons who desire an extraordinary production and where true artistic merit is prominently in evidence.

The above Toilet Set, in case (No. 4221), can truly be termed—an elegant production. Of extra heavy manufacture long service is assured. The design is in bold relief on a background of French Grey Silver, the "centres" in each piece being *bright* polished silver. We offer it as an exclusive and superior article.

The Toilet Set to the left of the page (No. 4213), is extra heavily made and *bright* silver finish. The design is one universally admired and favored. With a suitably styled initial engraved on each piece it makes a life-long appreciable gift.

The articles on this page are **twice** the size of the illustrations, with the exception of the two Toilet Sets in cases, which are **four** times larger than illustrated.

This set reveals the close relationship existing between skilful die-work and art as applied to silver. In the originals the former is perhaps entirely responsible for the attainment of the latter, the facial expressions being extremely life-like, while the remaining portion of the design has a most pleasing and harmonizing influence. It has the French Grey Finish effect. It is noted for its extraordinary beauty and elegance.

Although initials are engraved free, they are nevertheless done well.

These above illustrations give one a fairly good idea of the beauty contained in this design. The mountings are of Sterling Silver "Bright" finish, and one can choose any required number of pieces to complete a Toilet Set undoubtedly choice. The prices remain unchanged even though a number of pieces are desired. A favorite combination consists of Mirror (No. 4281), Hair Brush (No. 4285), Comb, Cloth Brush and Bonnet Brush in Silk-lined Leatherette Case. Price, complete, \$30.00.

The embodiment of "Sterling" in its literal sense will be noticed on every single piece of silver offered by us. "Sterling," as applied to our assortments, means *Sterling in make, in quality of material and in the utility of the article proposed.* Every article leaving our establishment carries with it our personal guarantee as to quality and value, and the fact that the "backbone" of this business still derives its strength from those who have dealt with us continuously ever since its infancy, offers in some measure positive assurances of the stability and high standing we have attained in the confidence of the general public and in our ability to give what we promise—high-class Sterling Silver goods.

NOTE—These three illustrations will give one an approximate idea of the actual size of the articles shown on this page (with their respective designs) and also some for similar service shown on the page opposite (67). All the articles on both pages are four times larger than the illustrations, and we would like to emphasize the fact that these goods are not light-weight, useless table helps, but in every particular will be found well made, high quality and of serviceable and lasting weight, and in addition the cases holding the various pieces are such as lend dignity to the articles, being of superior make and rich looking. These two pages will supply wedding celebrants with appropriate suggestions from which to make a surely acceptable offering.

The full appreciation of an article depends on two things—its utility and its quality. A glance through these pages will disclose many a useful and perhaps much-needed acquisition to the dining-room table. And how pretty—not to mention the appetizing effect of dainty rich silver—does the table appear where needful silver of high quality is seen. A careful perusal of our "Fine Sterling Silver" pages will quite likely amply repay one for the time spent in becoming better acquainted with its manifold number of likeable articles.

Our method of increasing our Mail Order business each year has proven itself to be the right one. The filling of every order—great or small—with care, detailed attention and despatch, and in a manner within the very letter which our description calls for secures us a generous amount of support from all over Canada, through which we obtain a fixed patronage. The business relationship thus established is one where mutual interests are involved, and in which we are doubly careful to guard and sustain. The making of permanent contributors to our store becomes a reality and our influence cannot but help grow in consequence.

Fine Cut Glass receptacles for Dining-room purposes have been sought after with much favor of late years; until to-day the sideboard is hardly considered complete without its complement of Cut Glass. Apart from the utility certain articles possess and which they seem conveniently adapted for, the beauty and cleanly aspects of Cut Glass make the article in many instances second to none as a dining-room vessel of almost indispensable service. And although not a rival but rather a companion of the Sterling Silver table need, it frequently serves as a welcome alternative of the latter to the sometimes daunted wedding guest, who might find anxiety in deciding what the wedding offering shall be.

Everyone loves to admire the glittering elegance and dazzle of a fine piece of richly Cut Glass, with its myriads of brilliant colors, somewhat diamond-like in effect. There is no "hidden beauty" heard spoken of by art critics in Art Creations—everyone can see the beauty and admire a good specimen of Cut Glass.

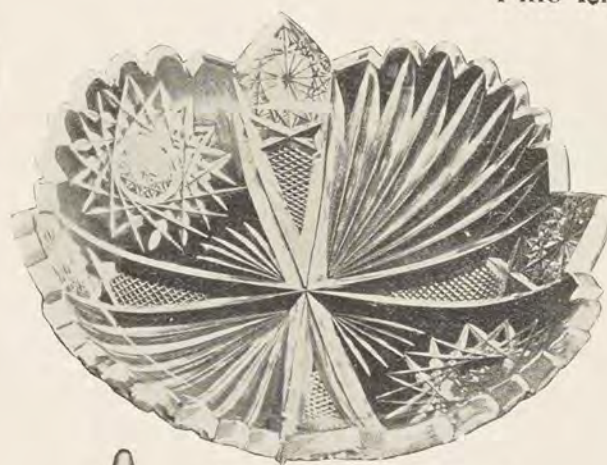

Quality of material, proportionate cuttings, and pleasing curvatures, these and other virtues which make for beauty are seen to a high degree in all the several designs offered for your approval. Patrons will also find our prices have been set temptingly reasonable and we guarantee the safe arrival of all orders. Our Cut Glass offerings will be found especially interesting at wedding times.

**The Beatrice Pattern**—We supply Flatware such as Spoons, Forks and Knives, in the same design as the illustrations on the lower row at the following prices: No. 8625—Tea Spoons, smaller size, light weight, \$6.50 per dozen; No. 8626—Same, medium weight, \$7.50 per dozen; No. 8627—Same, large size, medium weight, \$9.00 per dozen; No. 8628—Same, heavy weight, \$10.50 per dozen; No. 8629—Dessert Spoons, medium weight, \$18.00 per dozen; No. 8630—Same, heavy weight, \$21.00 per dozen; No. 8631—Table Spoons, medium weight, \$21.00 per dozen; No. 8632—Same, heavy weight, \$25.00 per dozen; No. 8633—Dessert Forks, medium weight, \$18.00 per dozen; No. 8634—Same, heavy weight, \$22.00 per dozen; No. 8635—Dinner Forks, medium weight, \$22.00 per dozen; No. 8636—Same, heavy weight, \$26.00 per dozen.

**Cabinet Silver**—We furnish cabinets for any required number of pieces. We quote "Flatware" prices in this design because it is one which makes a very handsome case of silver. Cabinets of polished hardwood and silk-lined, with compartments to contain half dozen Tea Spoons, half dozen Forks, half dozen Dessert Spoons, half dozen Table Spoons, and with from six to nine chosen single pieces from above illustrations in lower row, cost \$15.00 each extra, over and above the cost of the silver chosen for it. A Cabinet of Silver thus suggested, being a very popular combination, makes an ideal presentation gift. The articles come in *Bright Silver* finish.

**Carnation Design Tableware**—The above pattern is one that will be sure to commend itself because of its extraordinary beauty. It has met with great success. The background or plain parts in the several pieces are dul silver, now generally known as French Grey finish, the design having been assisted with pleasing effect by the introduction of the oxidized finish, which follows the line-work throughout as seen in each piece. When preferred, the "plainer" parts of the articles can be supplied in *Bright Silver*, giving the contrast of Bright Polished Silver and the Grey effects. Either are decidedly striking and beautiful, although the last mentioned seems most popular at present. Quotations for Flatware in this pattern, not illustrated: Tea Spoons, large size, medium weight, \$14.00 per dozen; Same, heavy weight, \$16.00 per dozen; Dessert Spoons, \$28.00 per dozen; Table Spoons, \$31.00 per dozen; Dessert Forks, \$27.00 per dozen; Dinner Forks, \$30.00 per dozen. Although some of the prices in this design are somewhat more expensive than average table silver in other designs, this is accounted for because the pattern is one which requires the introduction of a larger proportion of silver than most patterns. Add to this the fact that it is an imported pattern, the duty helps to make it seem a costly article. It is widely sought after for presentation purposes.

We beg to state that our Catalogues are not sent promiscuously or "pell mell" throughout this country. Our clientele and their friends are numbered from the Atlantic to the Pacific, and even as far north as the Yukon Territory and places remote to the commercial centres of Canada. Although our circulation is a large one, it must be remembered we consider it a *select one*, because, in the first instance, it has been especially prepared with a view to meet the wants of outside communities so as to bring them in closer touch with our unrivalled stock and our eminently satisfactory Mail Order methods. Secondly, we feel certain that amongst the names at present on our circulation list that a large proportion will of necessity at some time or other during the near future, (or possibly in the more distant future), want a good reliable article in silver or gold, in some form or another, and probably find the very want through a reference to these pages. Many are sometimes a little dubious about sending a small order, thinking it hardly worth while, and in some instances belittle their own immediate wants as not of sufficient moment to request of us the supplying. We are satisfied there are hundreds who reason thusly, and if this should catch the eye of such a one we plead once and forever to dismiss it completely from the mind. The smallest order is welcome and appreciatively received here, and when we say we can number amongst our staunchest friends and patrons many who repeatedly remit large amounts from time to time with orders for us to fulfil, a large proportion of these became so through a *first order* of modest significance. The very best attention and quick despatch is given to every single order—great or small—reaching our address.

Sometimes a Gilt Clock is the first and preferred suggestion filling the place of a gift, and the above collection is offered with the assurance that for that artistic beauty which "fine finish" makes possible, it is present to the full in these we illustrate. The movements are good, reliable timepieces, and the cases are known as French "Ormolu" quality, guaranteed to give durable and satisfactory wear. It will be observed that there are two styles of dials—plain ones and those with the fancy centres. When ordering please state which style is desired. The glass fronts are bevelled glass and add much to their appearance.

## Optical Department

We have one of the most commodious and well-equipped Optical Parlors on the American Continent. Presided over by a leading and thoroughly qualified optician, your optical needs are ably looked after and cared for in a manner that enhances the comfort which properly and skilfully fitted glasses give. When you enter this department for treatment you not only receive the best optical advice but have the advantages which modern devices, such as the latest appliances and instruments for eye-testing make possible. Nervous headaches and kindred troubles, often directly attributed to eye-strain and to errors in the refractory organs of the eye,

can be, and are, in a large number of cases, permanently relieved, and only so by the wearing of properly prescribed lenses. Our Optical Department is one of the prominent features of our business, and the success of its efforts in the past has been entirely due to the painstaking efforts shown each individual case, and the beneficial results obtained in consequence. Its usefulness to wearers of glasses is one recognized to-day by a growing and satisfactorily served patronage. It also has the endorsement of prominent eye doctors, and where special prescriptions are ordered by one's own physician our facilities for fitting them with accuracy and preciseness is well established in the confidences of the medical profession. Every care is paid to the diagnosing of difficult eye troubles and defects in the refractory organs of the eye. Special attention is given to the "fitting" of ground lenses (more technically known as compound lenses), a kind which have to be set *just so and kept there*, the neglecting of which seriously diminishes their otherwise beneficial use. "Appearances," too—so often overlooked in the detail of satisfactory fitting—is one always remembered when purchasing glasses of us. We make no charge whatever for testing your eyesight, and if glasses are needed, or not, candid and experienced expert advice is given. Every minute detail is studied, so that your glasses will be both "becoming," "comfortable" and correctly prescribed. A visit to our Optical Parlors will either dispel or reveal whether you need glasses, and in making this observation we extend a cordial invitation to those seeking optical advice to call and consult our Optical Department. Consultation free, and at all times the services of our optician are at your disposal, with earnest and interested complying to your special wants.

## Repair Department

**Broken Jewellery**—The "Thousand-and-one" kind of repairs which finds its way into the Repair Department of our business requires a complete staff of competent and skilled workmen. Their services can be availed of with almost equal convenience, and certainly with equal satisfaction, *through the medium of correspondence*, as if the article requiring mending was brought personally to us. We have every facility for the "making as good as new"—when possible—of damaged jewellery. Many a piece of broken jewellery is sent into our Repair Rooms with almost hopeless thoughts of being restored to its former condition. It matters not how small or insignificant the repair, the mere fact of your treasuring it makes it incumbent on us to do our very best to place it in that condition you were formally so accustomed to find and see it in. When we say our Repair Department is largely for the "convenience" of our patrons we use the expression somewhat as a metaphor, and to convey the truth that our prices for repairs of every kind will be found exceptionally moderate, while the execution of the work is always of a character as will merit your esteem.

**Defective Watches**—Our Watch Repair Trade is doubtless one of the largest in Canada. Watches of complicated mechanism, such as Repeating Chronographs, Stop Watches and other finely jewelled and adjusted timepieces, receive the greatest care and attention from a staff of competent, practical watchmakers who are kept constantly employed, doing naught else but inspecting and remedying the defects and damages watches are subject to. Some watches seem to have chronic defects which only the most skilful can discover. In this regard many a watch finds its way to the benches of our watch rooms which the owner has been glad to have occurred and subsequent satisfaction enjoyed. When any new part is required to be replaced only the best materials are used, and ordinary work, such as cleaning, new mainsprings, jewel holes and pinions, etc., are re-inserted with the utmost care and detailed attention. The more difficult branches of repair work, where the success of the operation depends largely upon keener and more expert skill, is understood by our workmen as few comparatively do. We are always willing to examine your timepiece and set the price—which is always as low as good work can be done for—before deciding in the matter. In both Jewellery Repairs, as well as in Watch Repairs, does this apply. We guarantee entire satisfaction and promptness.
